SUMMARY

Highly analytical and detail-oriented professional combining a Bachelor of Arts in English Literature with robust technical expertise as a self-taught Programmer and Web Developer. Proficient in building scalable web applications using Python (Django), HTML, CSS, and JavaScript. This development skill is reinforced by practical IT and client service experience gained from working in a Cyber Café.

PROFESSIONAL EXPERIENCE

Haized Cyber Café

IT technician

2024-2025 

- Provided technical support and assistance to customers, managed computer workstations, and oversaw printing and scanning operations. Guided clients in internet usage, document editing, and troubleshooting, ensuring efficient and seamless daily operations.
- Helped the business grow from a school tools store to a Cyber Café

BOUSSALIA Fiber Optic Installation and Maintenance Enterprise

Fiber Optic Installation and Maintenance Technician

2025 

- Installed and configured fiber optic cables and equipment, carried out routine maintenance, and resolved network faults to ensure stable and efficient connectivity. Conducted signal testing, performed repairs, and supported upgrade projects while adhering to technical and safety standards.

PROJECTS

Almaarefa Website

2025 

- Developed a responsive educational website focused on delivering clear, structured learning content. Designed the user interface, implemented interactive features, and optimized performance for a smooth browsing experience. Managed deployment and ensured consistent uptime and accessibility. (www.almaarefa.site)
